

NanoEurope Symposium 2009: Best Poster Awards

The seventh NanoEurope Symposium attracted some 400 attendees from 17 countries. The poster session fostered, as an integral part of the symposium program, communication between industry and academia and promoted young researchers. This year, some 73 posters from research institutions and companies all over the world proofed the wide spectrum of new scientific developments in nanotechnology.

For their outstanding contributions, the following researchers were awarded:

The Award Winners

- **Andrea Cavallini**, Sandro Carrara, Giovanni DeMicheli, ecole polytechnique fédérale de lausanne
„Nanostructured proteins thin films for electrochemical detection of drug mixtures“
- **Jatuporn Salaklang**, J. Wanna, H. Hofmann, ecole polytechnique fédérale de lausanne, A. Fink-Petri, University of Fribourg
New magnetic fixbed reactors for improved nanoparticle coating
- **Fatemeh Nouroozi**, Faezeh Farzaneh Alzahra University, Dept. of Chemistry Tehran, Iran
Growing of carbon nanotubes on different mesoporous material in presence of cobalt ion as catalyst
- **Rebecca Hollertz**, F. Nüesch, Bryan T.T. Chu, F. Araujo de Castro, Swiss Federal Laboratories for Materials Testing and Research Dübendorf
Graphene reinforced nanocomposites

The Jury

Heinrich Hofmann, Gian-Luca Bona, Alex Domann, Niklaus Bühler,
Jens Gobrecht, Markus Niederberger.

The Award Sponsors

We wish to acknowledge the generous contributions of the award sponsors.

NanoEurope Symposium 2009

Best Poster Awards Ceremony

Rebecca Hollertz receives an award for her contribution: „**Graphene reinforced nanocomposites**“, sponsored by the Swiss Association for Materials Science and Technology SVMT.

Andrea Cavallini receives an award for his contribution: „**Nanostructured proteins thin films for electrochemical detection of drug mixtures**“, sponsored by the Competence Center for Materials Science and Technology CCMX (vicarious reception by Nathalie Jongen).

Jatuporn Salaklang receives an award for his contribution „**New magnetic fixed reactors for improved nanoparticle coating**“, sponsored by the Swiss federal lab for materials testing and research (vicarious reception by Nathalie Jongen).

Fatemeh Nouroozi receives an award for her contribution: „**Growing of carbon nanotubes on different mesoporous material in presence of cobalt ion as catalyst**“, sponsored by MatSearch Consulting.
